We are pleased to inform you that "EUROPEAN PROJECTS CONSULTING" EOOD concluded a Financing Agreement No. BG-RRP-3.005-1986-C01 under the Economic Transformation Program under the National Recovery and Resilience Plan, selection procedure No. BG-RRP-3.005 "Solutions in the field of information and communication technologies and cybersecurity in small and medium-sized enterprises" for the implementation of a proposal for the implementation of an investment named "Solutions in the field of information and communication technologies and cybersecurity in small and medium-sized enterprises", financed by the National Plan for recovery and sustainability, funded by the European Union - NextGenerationEU.

The total cost of the project is: BGN 8,000.00, of which BGN 8,000.00 is grant funding.

BRIEF DESCRIPTION OF THE PROJECT:

"EUROPEAN PROJECTS CONSULTING" EOOD is a company specialized in providing consulting services. The economic activity of the organization is classified with KID code 70.22 Consultancy activity on economic and other management.

The project is related to the implementation of solutions in the field of information and communication technologies and cyber security in small and medium-sized enterprises.

PROJECT GOALS:

The purpose of the procedure is to contribute to the acceleration of the transition to digitalization of the economy by providing grants for the implementation of information and communication technologies and solutions that ensure an increase in the level of digitalization of small and medium-sized enterprises (SMEs).

STAGES:

The investment proposal will be implemented through the implementation of the following stages:

The creation of a corporate website, included as an eligible solution under the procedure in the List of eligible services and solutions in the field of information and communication technologies (Appendix No. 12) to group I "ICT services/solutions for digital marketing, platforms, websites and mobile applications", Item 3 Creation of a corporate website.

The implementation of the investment planned within the current project is considered as a necessary prerequisite for accelerating the transition of the organization to digitization and implementation of information and communication technologies and solutions ensuring an increase in the level of digitization of the company. The above is in line with the purpose of procedure BG-RRP-3.005 "Solutions in the field of information and communication technologies and cyber security in small and medium-sized enterprises". The corporate website planned to be created will directly lead to the improvement of the company's market presence, its promotion among potential customers and partners, thus contributing to the development of the organization's potential for sustainability and growth.

Project № BG-RRP-3.005-1986 "Solutions in the field of Information and Communication Technologies and Cybersecurity in SMEs", financed by Recovery and Resilience Plan, financed by the European Union – NextGenerationEU.
